

IDENTIFYING the early signs of DEMENTIA

FREE Sunapee Cove Seminar Wednesday, June 19, 7-8 pm

This informative and interactive discussion and Q&A will be presented by **Michelle Boiardi, CADDCT, CDP**, a specialist with 20 years of experience in the field.

- Learn the signs and symptoms of dementia and memory loss
- Learn the differences between Alzheimer's and other dementias
- Learn what can be done once a diagnosis has been made

Early detection can result in a • higher quality of life for the person afflicted, • less stress for family care partners, and • more time to treasure the present and prepare for the future.

RSVP today to 603-763-0566.

Seating Limited. Refreshments Served.
